Subject: TAP Forward Procedures, DAAE20-99-C-0096

Dear Mr. Ebert:

The purpose of this letter is to modify the TAP Forward Scope of Work by adding the following:

"Prior to or upon arrival at the NTC, TAP Forward personnel will coordinate with the NTC MMC Support Operations Officer to receive reception and staging guidance for TAP Forward personnel and vehicles.

TAP Forward personnel shall ensure all transactions are processed within the parameters established by NTC prior to issue of the item from TACOM TAP Forward stocks. Prior to (or at the start of) any rotation, the TAP Forward Team Leader will coordinate with the NTC MMC Support Operations Officer and obtain a list of DODAAC's that specifically require an NTC stamp. TAP Forward will not process any transaction with an NTC DODAAC with that stamp.

In the event the Rotational Unit does a call-in to the NICP, and the NICP directs delivery from the TAP warehouse (home station) to the TAP Forward sight, the TAP Forward site will ensure appropriate close out copies of the documentation are forwarded to Alpha DSU at NTC.

TAP Forward personnel will ensure all transitions are released to the DODAAC address specified in the transaction document.

*Attachment 03*

Documentation Requirements: For any rotation at NTC supported by TAP rotation the contractor shall prepare a TAP Forward PTI Activity Report and TAP Forward Issues Report. These reports can be submitted in the contractor's format but as a minimum shall include the following information:

TAP Forward PTI Activity Report: Unit, Tank S/N, LRU/SRU Nomenclature, Part Number, NSN, LRU/SRU S/N, Date Received, Date Completed, AMDF Cost, Div Cost, Document Number, Work Order Number, Remarks and Parts Needed for Repair.

TAP Forward Issues Report: Document Number, DODAAC Number, NSN, Nomenclature, Part Number, Qty, Serial Number, TAP Shipper, Date Req Rec'd, Date Shipped, Date Issued, Issued From and Type Item.

At the conclusion of any rotation the TAP Forward Team Leader shall submit to the NTC MMC Support Operations Officer copies of all of the documentation NTC requires to assist in reconciling funding issues between NTC and the Rotational Unit."

A formal modification to incorporate the above into subject contract will be done at a later date.

Subject: DAAE20-99-C-0096

Dear Mr. Ebert:

The purpose of this letter is to add to the list of items to be sent to the TAP facility at Ft. Hood for screening for NEOF and minor repairs. (See Attachment 01). These new, additional items are identified as major repair items for Honeywell. After these items are screened, they are to be stored at the TAP facility. Those items needing major repair will be stored at the TAP facility until a Government item manager directs shipment to Honeywell.

A formal modification to the contract to incorporate the revised list will be done at a later date.

The point of contact for this matter is Barbara Cunningham, AMSTA-LC-CAC-A, (309) 782-0600, fax (309) 782-0704.

Subject: Request for Proposal for Repair/Storage/Upgrade of  
M1A1D BCIS Kits, Abrams Tank, DAAE20-99-C-0096

Dear Mr. Ebert:

The purpose of this letter is to request General Dynamics Customer Service provide a proposal suitable for negotiation for the repair/storage/repair of M1A1D Abrams Tank BCIS kit items. The scope of work (SOW) for this effort will be sent as soon as possible. The period of performance will be from date of award to 30 September 2001. Also, request proposals for two option periods of performance with the first option period beginning 01 October 2001 through 30 September 2002 and the second option period beginning 01 October 2002 through 30 September 2003.

## M1A1D BCIS SOW

The M1A1D BCIS Tank will have LRU's and SRU's that are "unique" from the M1A1D Tank. These "unique" assemblies shall be included in the TAP contract with the same services that are applied to M1A1D, M1A2 and M1A2 SEP unique parts which include receipt, storage, issue, NEOF screening , repair and upgrade.

The period of performance for M1A1D BCIS items on the TAP contract will be **from time of award** through 30 Sep 2003. The government will supply 3 each storage/repair kits identified in attachment 01 as the initial quantities to be stored /repaired. Quantity changes and additions/deletions of components may be slightly different than listed on this document as the program progresses.

This effort is to initially support 14 M1A1D BCIS tanks required for BCIS Initial Operation Test & Evaluation (IOT&E) and thereafter increasing to a total of 45 M1A1D BCIS tanks on or about 1 May 2002 until a final configuration is designed for the M1A1D Tank after 30 Sep 2003.

The work effort is in addition to the current scope of work for the M1A1D on this contract. Additionally, two M1A1D components, specifically the DIU and 1W219-D harness will be upgraded when BCIS is added to the M1A1D vehicle. The upgrade items are listed in attachment 01. These items are downward compatible with the M1A1D tank.

The contractor will plan for replacement of any **BCIS repair item deemed irreparable based on a predetermined frequency of failure rate.**
